

Electromagnetic Compatibility Training, Equipment, Systems & Services

www.arctechnical.com

Training

We offer training in MIL & Commercial EMC Basic, Generic and Product Standards in all electro-technical Industries. (Power, Computers, Telecoms, Wireless Biomedical, Industrial, Scientific, etc.)

Equipment

We represent and re-sell Emissions equipment as well as ESD, Radiated & Conducted Immunity, EFT, Surge, Magnetic fields, Dips & Interrupts, Product Safety and most other required tests.

Systems

We integrate systems for Radiated & Conducted Emissions and Immunity tests with new, used or existing equipment.

We offer custom test profile authoring and support services for TILE! software.

Services

We offer complete Power Amplifier repair services at our repair facility. We offer routine maintenance and shielding repair and maintenance services on-site.
